Two-Way
Audio

When someone pass the warning area, **DIGIRAIN** AI camera alarm function is triggered at once. The dual light will be flashing and APP receiving the message push. Email Alerts will also be received if the users had a setting. The positive monitoring can effectively prevent property loss.

Clear Two-Way Audio

Built-in microphone & speaker allow you to listen and talk to whoever the camera catches in real time clearly, **DIGIRAIN** advanced echo canceller technology is able to transmit HQ sounds without noise.

Local SD Card Storage

Except for the cloud storage of our camera's APP, It has Built-in memory MicroSD card slot, Support up to 256GB local storage, which means you can save video for later viewing /Playack at any time any where even if there is no NVR.

DIGIRAIN AI Camera can intelligently filter objects to focus on human and face detection, which greatly enhances the monitoring efficiency and benefits the large population related industries such as public security, access control and business management.

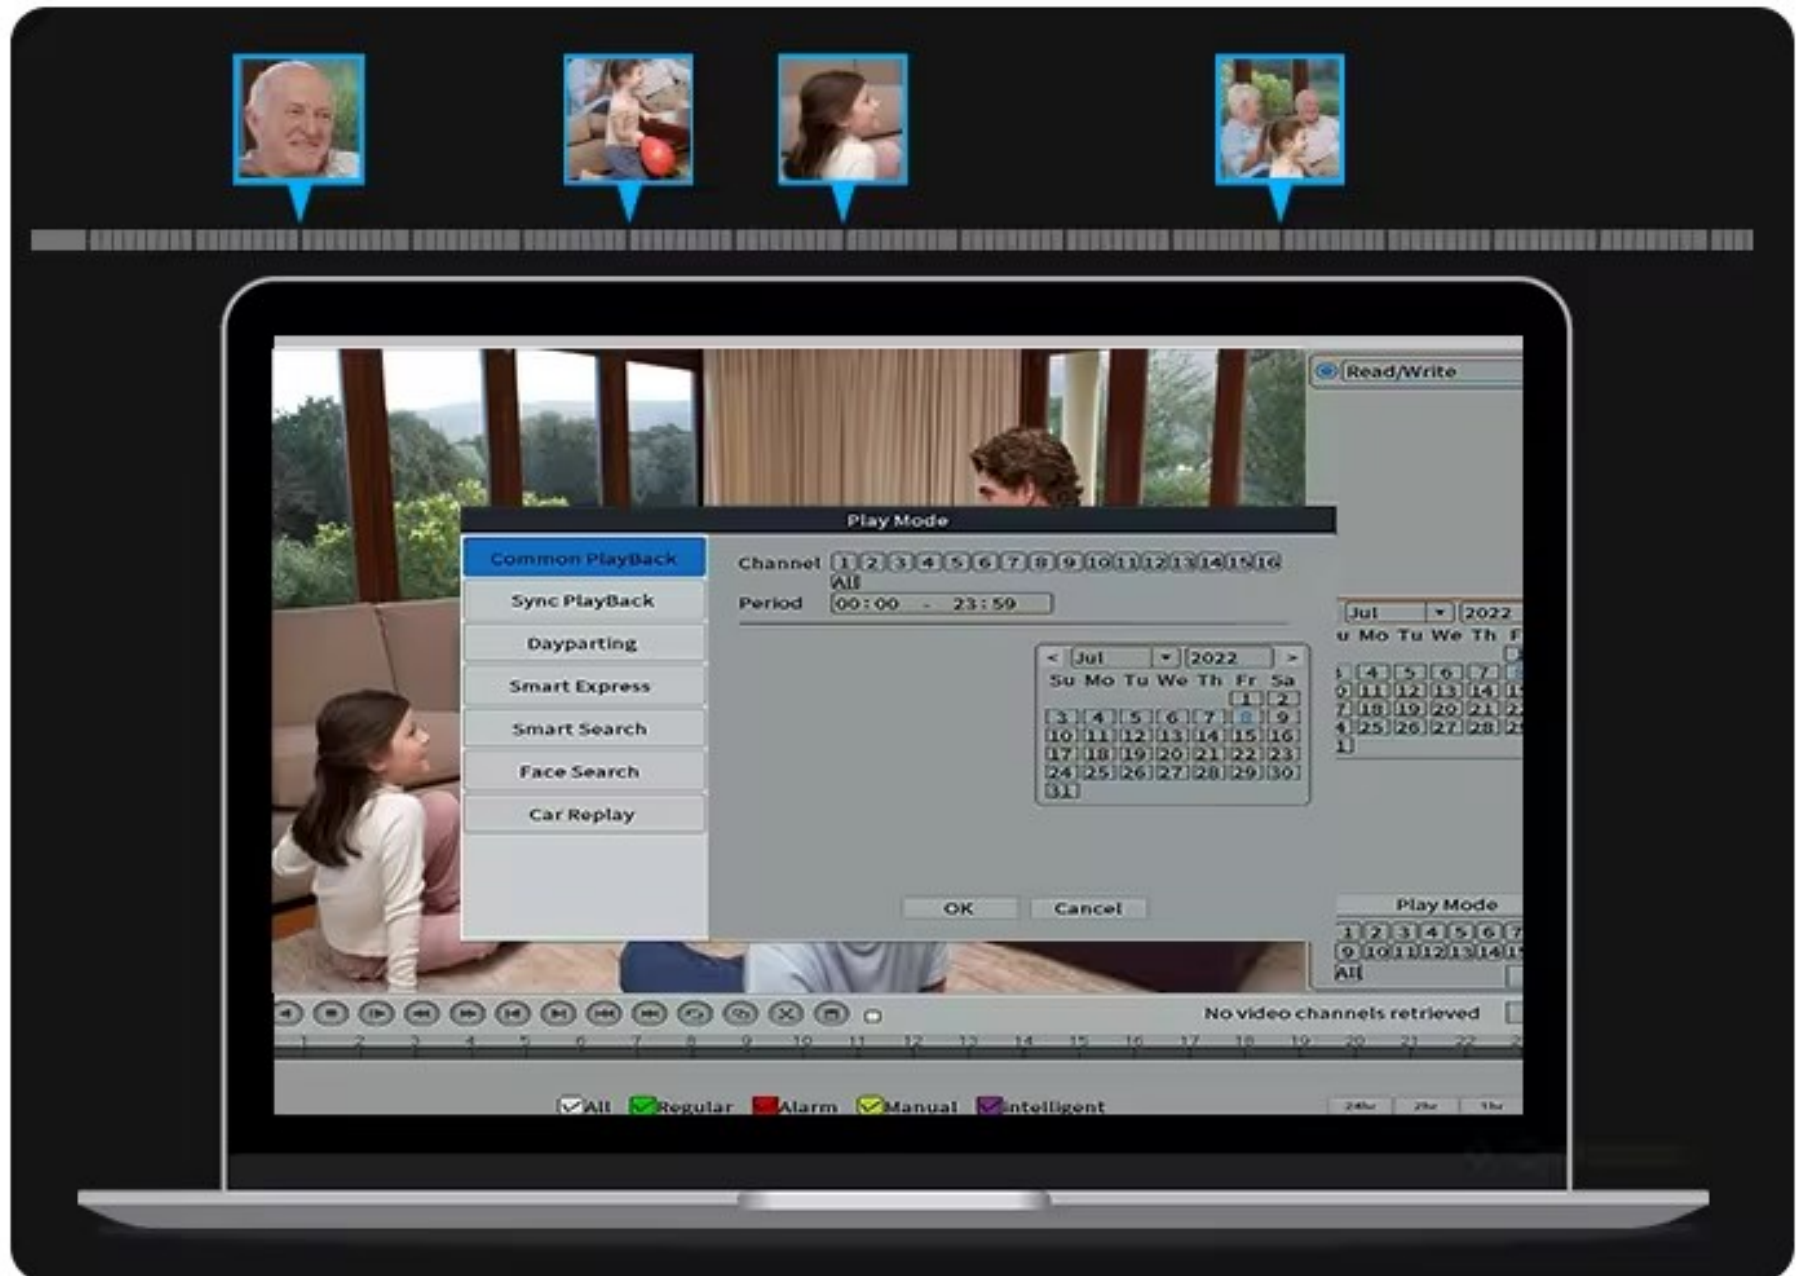

Smart Motion Detection

The Smart Motion Detection function enables the user to monitor specified area clearly in a timely manner. When there is motion detected in a target area, **DIGIRAIN** Camera will give an alerts by email /APP Push for the objects automatically.

Face Capture & Search

Camera detects human faces in the monitoring scene and captures the snapshots. When the users playback to video recording, the Face Search function can sort small video clips immediately by different faces , which greatly helps users do a quick and accurate view.

Sensor-based WDR technology allows the camera to record greater scene details with true color reproduction even under the extreme back light and high contrast conditions.

**WDR OFF****WDR ON**

Leading-edge H.265+ Compression

Smart H.265, The advanced video codec, can save more than 50% bandwidth compared with H.264.

F1.6 Large Apertures

DIGIRAIN Camera is equipped with large apertures (F1.6) that allow 1.7 times more light to pass through than normal cameras, as the larger aperture could let more light passes through to the sensor, which tremendously improving image exposure.

IP66 Anti-water Design

DIGIRAIN innovated the structure design, supporting IP66-rated weather-proof, which are the leading level of the industry. It is well protected against rainy and foggy weather to ensure the performance.

Integrated Junction Box

The well-designed Integrated Junction Box ensures efficient and simple installation. It enlarges the space to make cable connection neat and as easy as a piece of cake. With the help of the rubber plugs and rubber ring which guarantee IP67-rated weather-proof capability, the Integrated Junction Box is able to offer stable operation in any tough conditions.

Unique Structure Design

User friendly design of Microphone offer maximum enjoyment of usability and extensibility. Cable with shielding layer and twined lines effectively shields interference and transmit stable signals.

Flexible Lens Selection

For Fixed-focus lens, **DIGIRAIN** camera supports Flexible Lens selection among of 2.8mm(H:106.9°), 3.6mm (H:87.5°) and 6mm(H:65.5°) to meet various application scenarios.
