AI VCA Management

DIGIRAIN 4K Smart H.265 NVR supports alarm configurations and event search of Smart VCA. Once suspicious events detected, the devices can trigger alarms and recordings, help you improve video surveillance efficiency.

AI VCA Management

DIGIRAIN 4K Smart H.265 NVR supports alarm configurations and event search of Smart VCA. Once suspicious events detected, the devices can trigger alarms and recordings, help you improve video surveillance efficiency.

Human / Face
Detection

DIGIRAIN NVR supports the smart search and playback by face detection. It can sort small video clips immediately by different faces when playback, which greatly helps users do a quick and accurate view, save time and enhances the monitoring efficiency.

Smart H.265 Compression

Smart H.265, The advanced video codec, save 70%~80% bandwidth compared with H.264. Especially DIGIRAIN smart NVR working with smart IPC is able to display the best image quality in a lower bit rate.

H.264 Compression Format

H.265 Compression Format

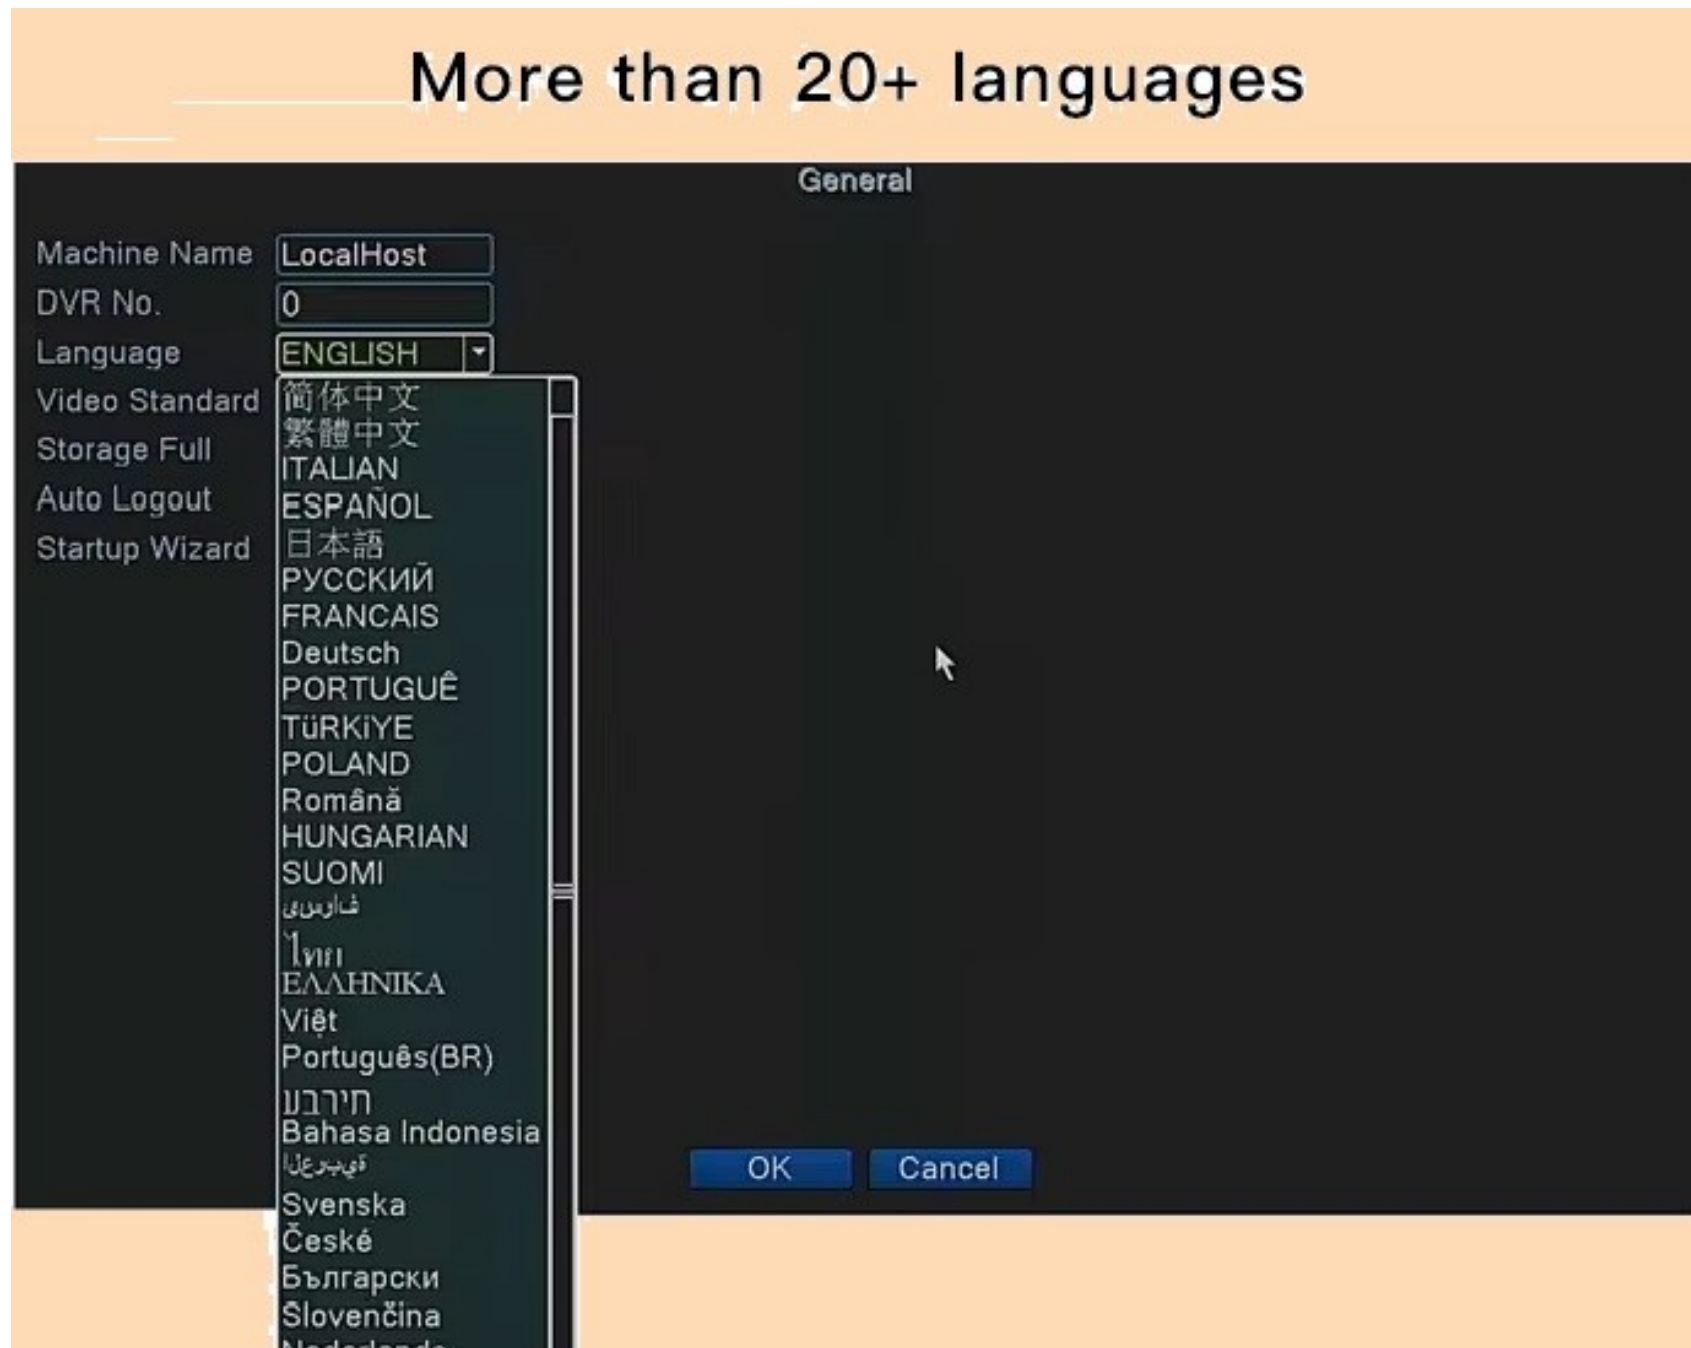

• Up to 8TB HDD

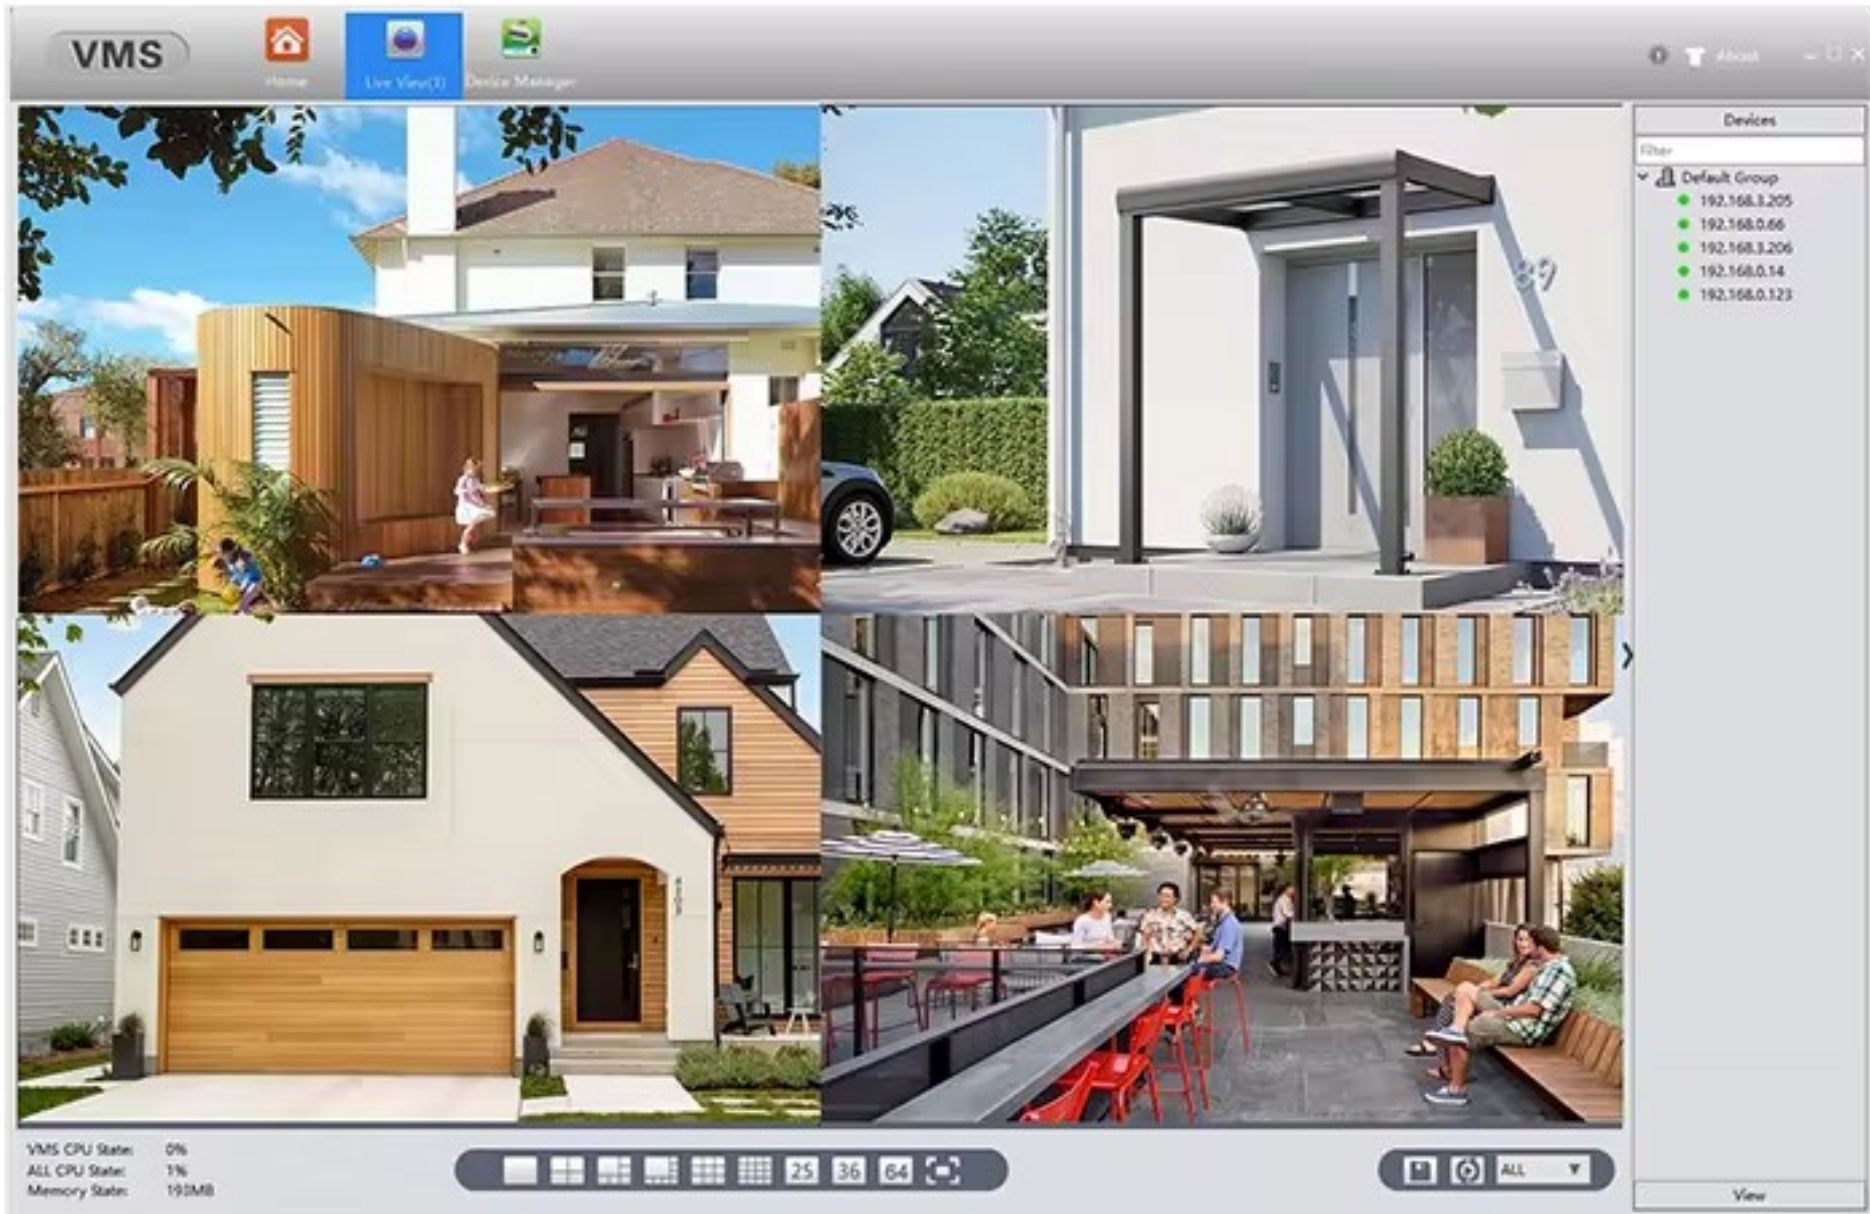

Birate/Kbps	Channels	8TB/Days
4096	4	48
6144	4	32
8192	4	24

Multi-Languages

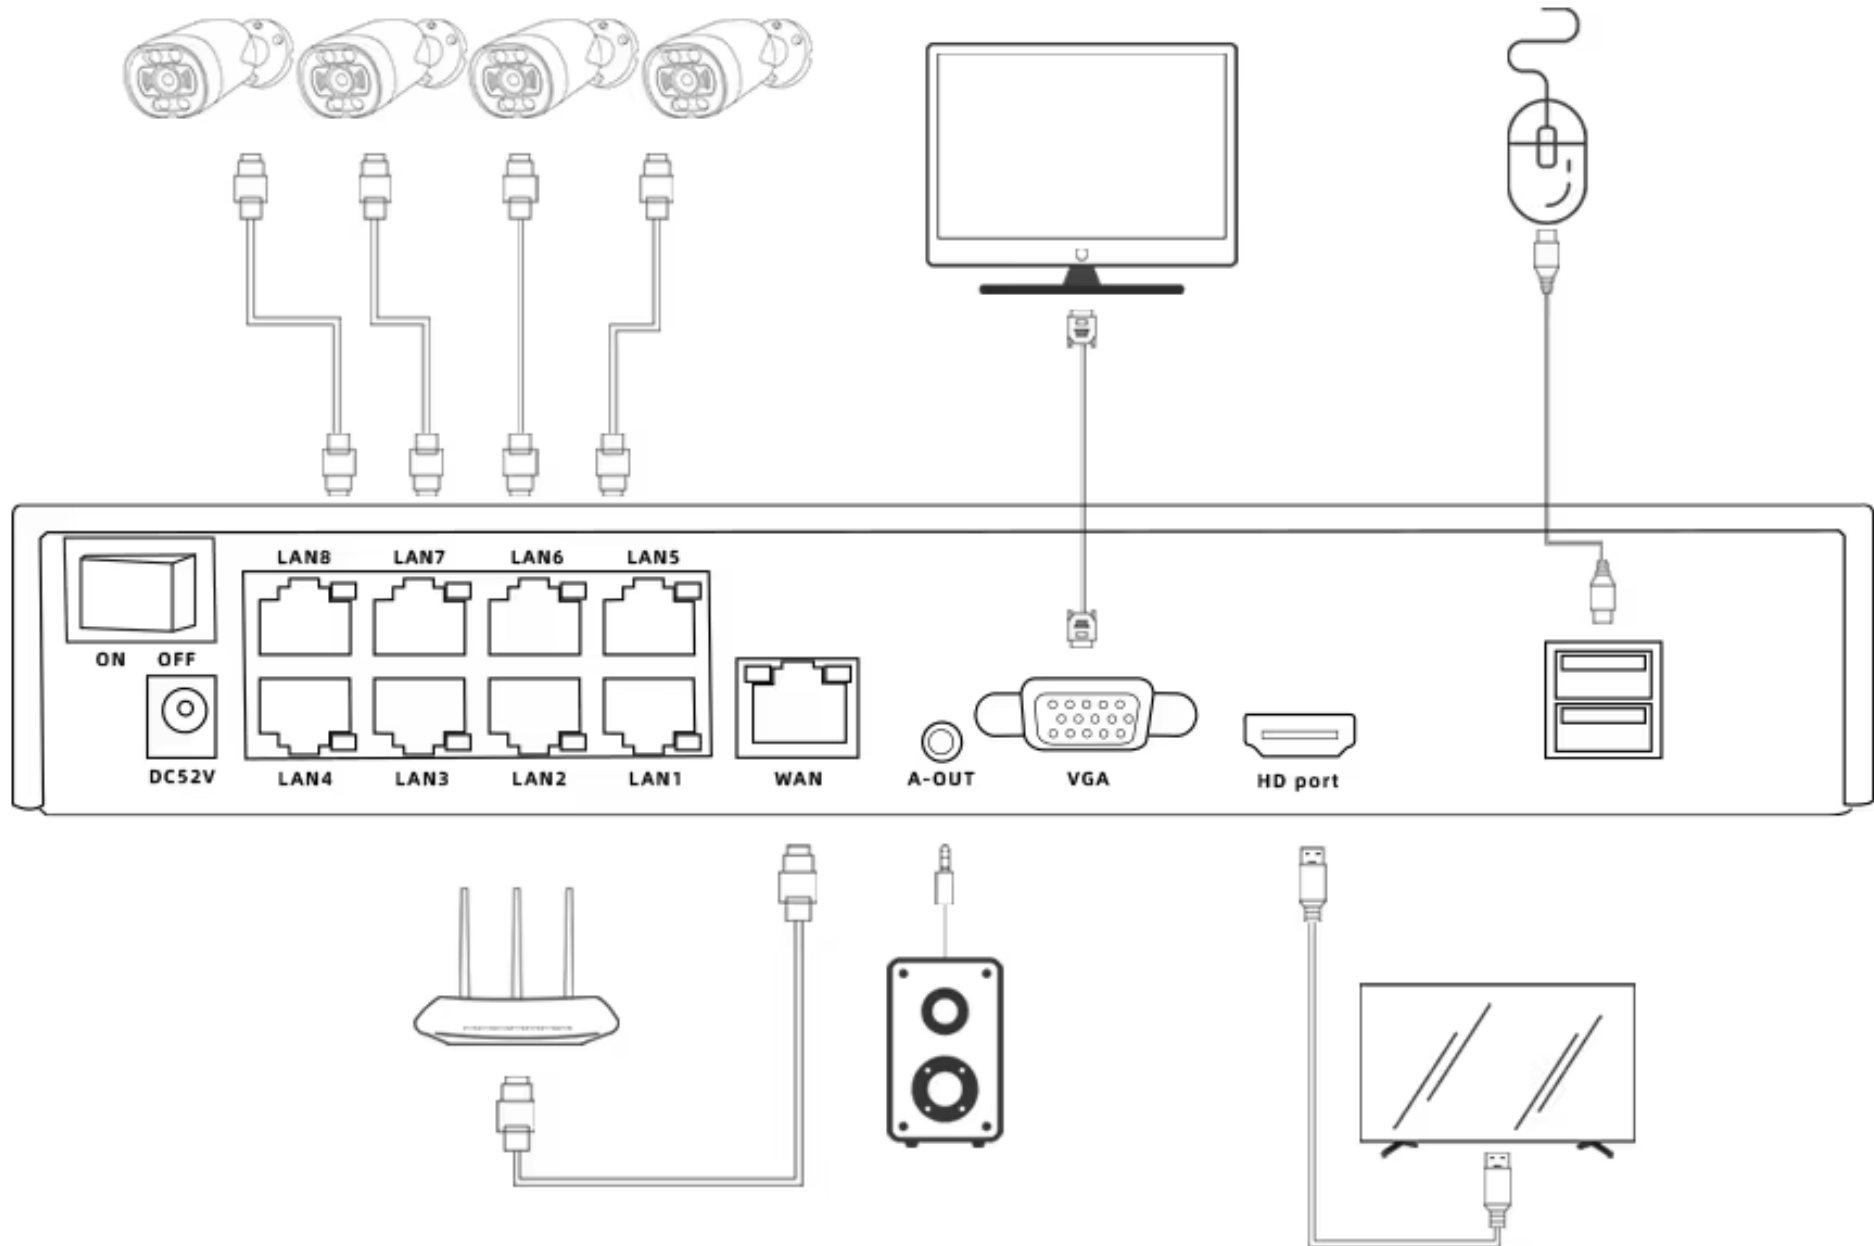

Multiple Languages Available: Russian, English, Italian, Portuguses, Spanish, French, German etc, it is easy for global users. Besides, we can also custmoize language at customer's requirement.

DIGIRAIN VMS/LMS software installed on PC can preview and control IP cameras. It supports Centralized management, Batch modification and upgrade, Local/Cloud playback etc.

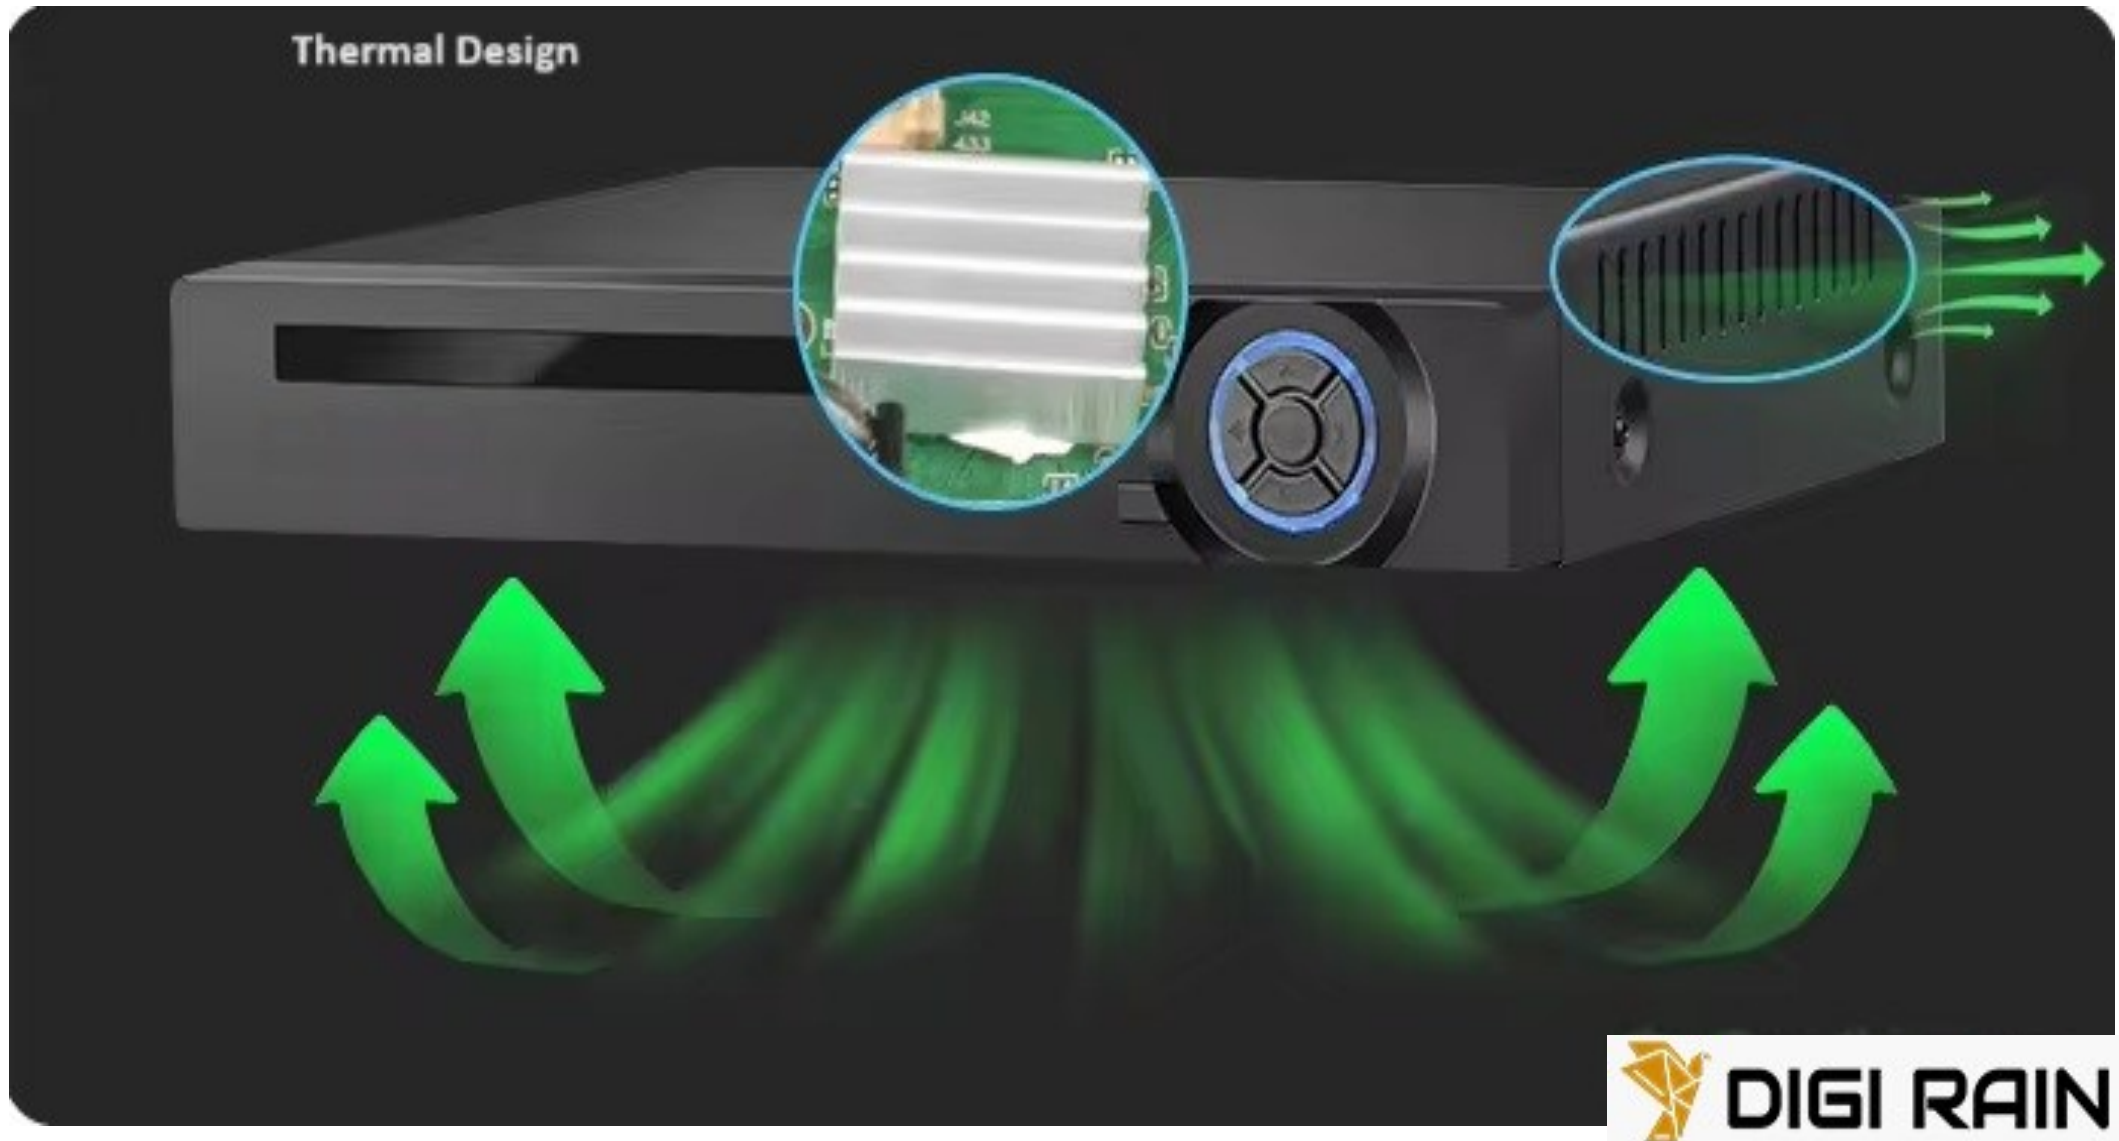

DIGIRAIN where cameras can be easily connected without a lot of network infrastructure work, ensuring you to begin the efficient monitoring in no time.

Thermal Design

The built-in radiation fin of PCB dissipates the heat effectively. Meanwhile, the ventilation holes on the side and bottom panels of NVR maximize airflow and carry heat away, ensuring the heat to transfer under a variety of different load conditions.

Packing & Delivery

Quality NVR and all of the accessories are well-packed with protective mat in the box. **DIGIRAIN** uses hard & thick cartons with corner pads to protect the cameras, especially the vibration test before shipment can ensure the goods arrive there in good condition.
