AI Smart Analytics

DIGIRAIN AI Camera can intelligently filter objects to focus on human and vehicle detection, which greatly enhances the monitoring efficiency and benefits the large population related industries such as public security, access control and business management.
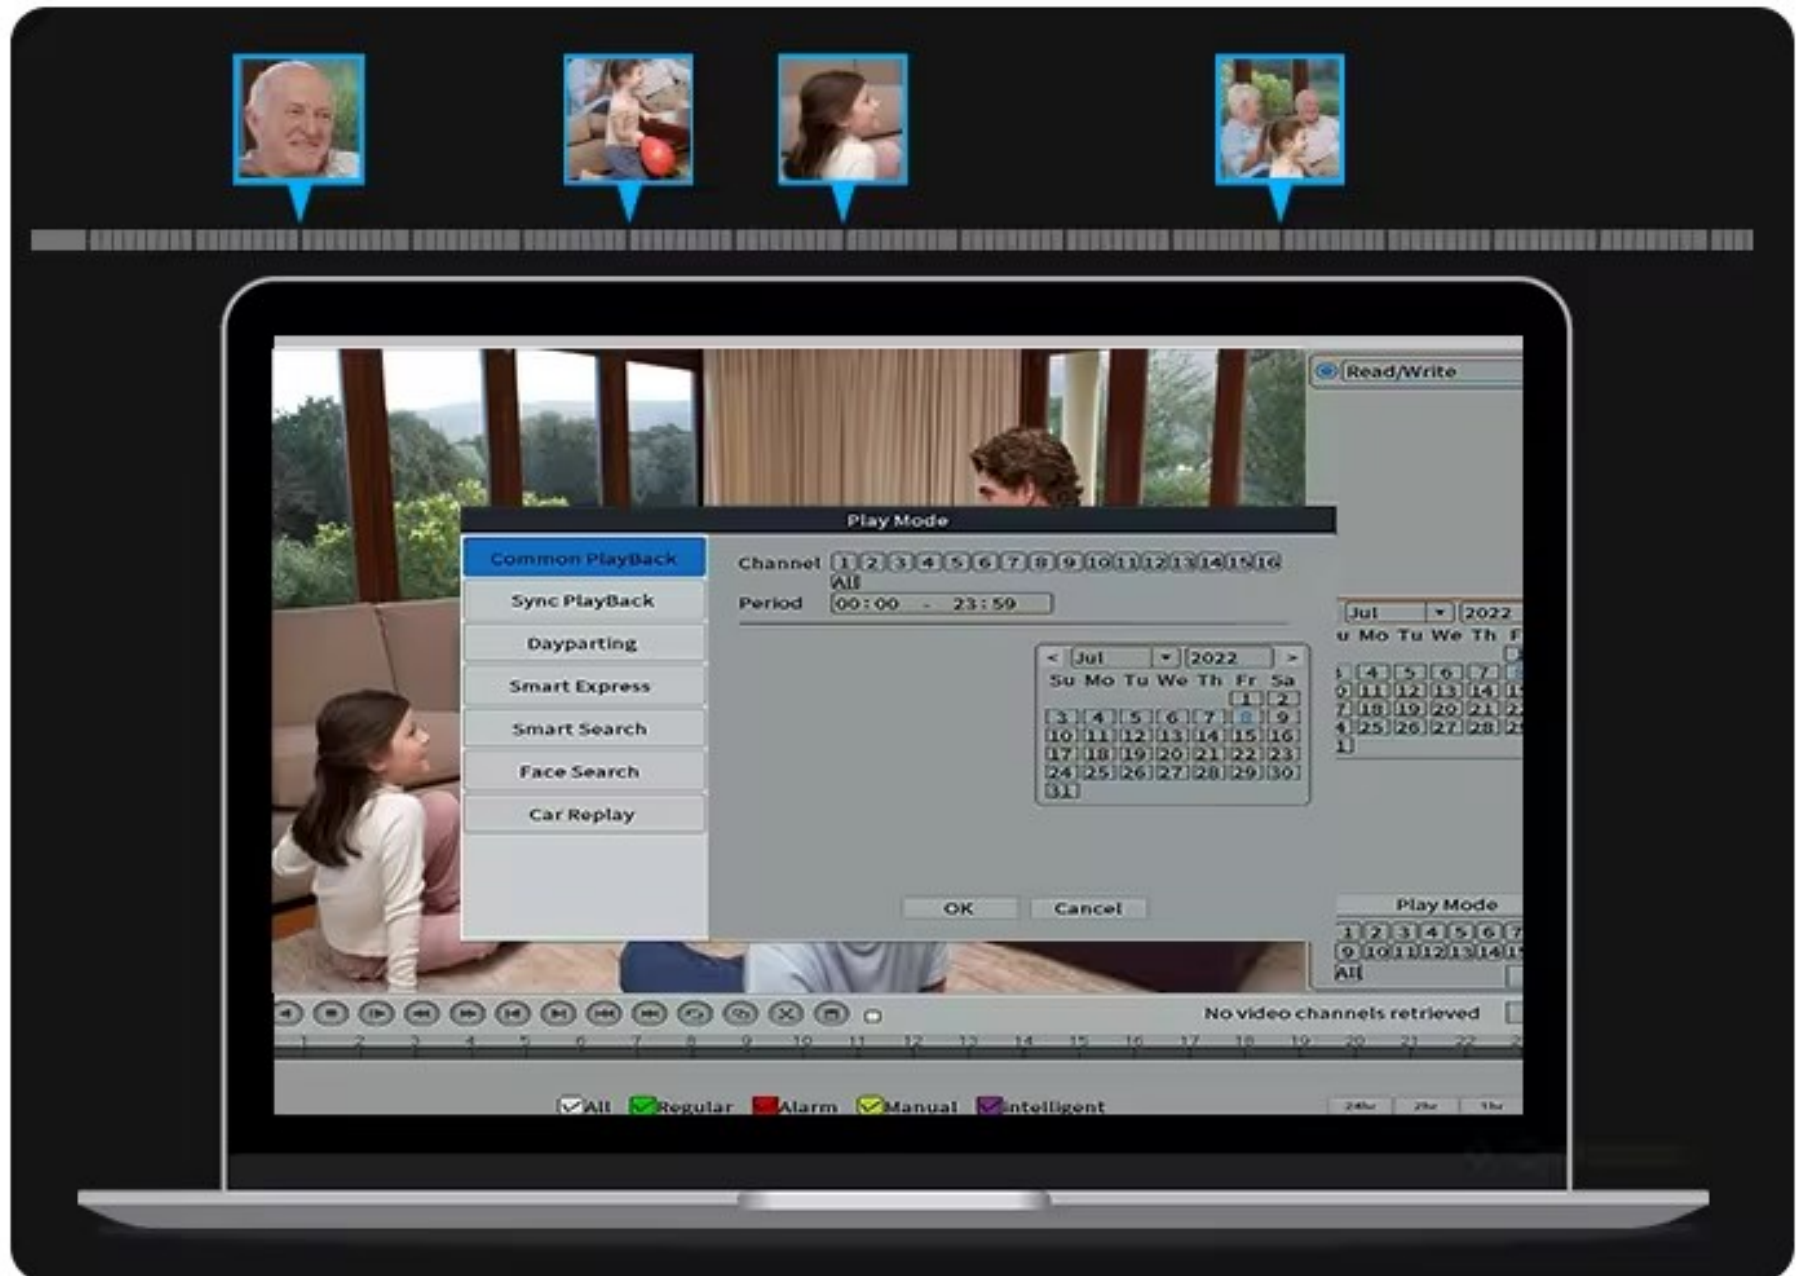

Smart Motion Detection

The Smart Motion Detection function enables the user to monitor specified   area clearly in a timely manner. When there is motion detected in a target area, DIGIRAIN Camera will give an alerts by email /APP Push for the objects automatically.

Face Capture & Search

Camera detects human faces in the monitoring scene and captures the snapshots. When the users playback to video recording, the Face Search function can sort small video clips immediately by different faces , which greatly helps users do a quick and accurate view.

Starlight Ultra Low-light

DIGIRAIN adopts SONY Starvis Sensor, which is able to deliver high detailed color images even in the low light environments reaching 0.001Lux (Color) or 0Lux (B/W), and near infrared light environments without any supplementary lighting.

DIGI RAIN

120dB Super WDR

Sensor-based WDR technology allows the camera to record greater scene details with true color reproduction even under the extreme back light and high contrast conditions.

DIGI RAIN

F1.6 Large Apertures

DIGIRAIN Camera is equipped with large apertures (F1.6) that allow 1.7 times more light to pass through than normal cameras, as the larger aperture could let more light passes through to the sensor, which tremendously improving image exposure.

DIGI RAIN

Full-color Image Performance

Combined with Built-in warm illuminator, which could deliver colorful and high resolution images in the dark or at night for the majority of monitoring scenarios, like outdoor area, parking lot, retails and so on.

Smart Control For Light

DIGIRAIN ColorVU Network Camera is equipped with intelligent control technology, which could not only turn on/off the warm light,but also change the luminance of the supplement lighting automatically, achieving a flexible way for the monitoring control.

IP66 Anti-water Design

Supporting IP66-rated weather-proof for indoor and outdoor use, the DIGIRAIN Network Camera is well protected against rainy and foggy weather to ensure the performance.

Unique Structure Design

User friendly design of Microphone offer maximum enjoyment of usability and extensibility.Cable with shielding layer and twined lines effectively shields interference and transmit stable signals.
